

AI-Powered Web Accessibility

Max Access makes achieving WCAG conformance and meeting accessibility laws easier than ever. This AI-powered solution continuously scans, analyzes, and updates your website, boosting compliance as you add new content. Max Access also offers a fully customizable user toolbar that aligns with your brand, delivering both accessibility and seamless design. Max Access enhances your website's accessibility through three powerful features:

- **Automatic Remediation:** Advanced AI technology automatically detects and fixes accessibility issues removing barriers for people with disabilities.
- **Customizable Accessibility Toolbar:** Includes an integrated multilingual screen reader and other tools to enhance the user experience for visitors with disabilities. Best of all, it can be fully tailored to match your brand's aesthetic.
- **Comprehensive Dashboard:** Easily track and manage your website's accessibility with extended remediation reports, giving you insights and actionable steps to continuously improve compliance.

Boost your compliance, increase your customer base, support people with disabilities, and reduce legal risks—all while maintaining brand consistency.
